

# Anesthesia Machines

FHC offers top quality new anesthesia machines from Penlon.

## Penlon Prima 450 Anesthesia System:

- Electronic flow display & conventional flowmeter options available
- AV-S ventilator
- A200SP absorber
- Sigma Delta vaporizer
- Electronic flow display
- 6 ventilation modes
- New top shelf w/ secure GCX mounting system for patient monitors
- Territory-specific electrical outlet options
- Selectactec compatible back-bar (1 or 2 stations)
- Illuminated work space
- Large capacity drawer units
- GCX compatible aluminum uprights for additional accessory mounting
- Integrated CO2 absorber and bellows unit w/ ventilator interface
- HIS connectivity
- Intuitive design in compact footprint
- Low life costs

**2 Year Warranty!**

PEPRIMA450

## Penlon Prima 460 Anesthesia System:

- Electronic flow display & conventional flowmeter options available
- AV-S ventilator
- A200SP absorber
- Sigma Delta vaporizer
- Electronic flow display
- 6 ventilation modes
- New top shelf w/ secure GCX mounting system for patient monitors
- Territory-specific electrical outlet options
- Selectactec compatible back-bar (2 or 3 stations) w/ interlock on 3 station option
- Up to 4 cylinders
- Illuminated work space with pull-out writing surface
- Large capacity drawer units
- GCX compatible aluminum uprights for additional accessory mounting
- Integrated CO2 absorber and bellows unit w/ ventilator interface
- HIS connectivity
- Intuitive design in compact footprint
- Low life costs

**2 Year Warranty!**

# Anesthesia Machines

We also carry refurbished anesthesia machines from Datex & Drager

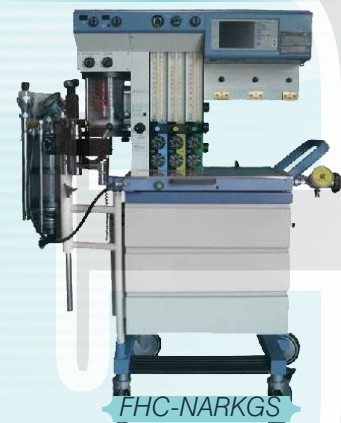

## Datex Ohmeda Aespire S/5 7900 Anesthesia Machine:

- Enhanced monitor integration capabilities with Datex-Ohmeda anesthesia monitor
- Optional integrated auxiliary O2 flowmeter and suction control/pressure waveform available
- Advanced breathing system (ABS™)
- One-step bag/vent switch turns ventilator on/off
- Minimal number of parts and tube connections greatly reduces the potential for leaks and misconnects
- Easy disassembly (no tools required)
- Fully autoclavable and latex-free
- 7900 ventilator s/n - volume and pressure modes with electronic peep
- Exhaled volume airway pressure and inspired oxygen monitoring capabilities
- Direct access to ventilator parameter settings
- Smart alarms direct user to specific problems and affected parameters
- Pressure bar graph for visual reference on a breath-by-breath basis
- Improved low flow/reduced life cycle costs
- Only one scheduled maintenance check per year

## Datex Ohmeda Aestiva 5 Anesthesia Machine:

- Enhanced monitor integration
- Lightweight and compact
- Advanced breathing system
- Fully autoclavable and latex-free
- Oxygen monitoring capabilities
- Volume and pressure modes with electronic peep
- Improved low flow/reduced life cycle costs
- Superior 7900 SmartVent technology
- Optional: integrated auxiliary O2 flowmeter and suction control, and pressure waveform available

## Drager Narkomed GS Anesthesia Machine:

- Air O2 & N2O flow control assembly with yokes
- Triple exclusion system absorber system complete with hoses & peep system scavenger
- O2-Med FIO2 monitor w/ new fuel cell/sensor cable
- Breathing pressure monitor
- Respiratory volume monitor
- Ave elect. ventilator w/ ascending latex-free bellows & insp. pressure limiter
- ORC O2 ratio monitor
- Drawer assembly w/ central key locking system
- Built-in monitor
- 5" casters w/ front wheel locks
- Nasal O2 flowmeter & vacuum regulator

**\*One year parts and labor warranty on all refurbished anesthesia machines. Excludes travel time, rubber components, monitor sensors, fuel cells, seals, gaskets and other expendable items. Anesthesia machine warranty service must be performed by FHC or an authorized agent.**
